

High quality attenuator for 100V line speaker systems, providing 11 stepped level settings. When installing the attenuator, ensure the total speaker load (Watts) does not exceed the attenuator power rating. An optional attenuator bypass relay (R models) may be connected using the +/-24VDC terminals

Depth behind plate:

WMA10CW/R	35mm
WMA25CW/R	36mm
WMA50CW	38mm
WMA100CW	45mm
