

ATX10 MULTI TAPPED HORN 10 WATTS

ATX10 is an aluminium reflex horn with inbuilt driver and tapped transformer.

Weatherproof and easy to mount, the ATX10 will provide efficient sound levels on a continuous basis.

Finished in a metallic grey, ATX10 has a solid U bracket which is deep enough to rotate the horn through 360 degrees.

Access to power tapplings is by removable cap and selection of the appropriate power tap connection. Normally the horn is supplied with 10 watt tap connected.

The ATX10 is one of a family of quality reflex horns available from Audio Telex. They range from heavy duty 15 and 30 watt units to wide angle and explosion proof types.

Technical Specifications:

FREQUENCY RESPONSE Hz	300-8000 Hz
RATED POWER (W)	10 watts RMS
POWER RANGE (W)	10, 5, 2.5, 1.4 watts
DISPERSION L°	120°
SOUND LEVEL dB	106 dB 1 W 1 mtr
CONSTRUCTION	Aluminium
DIMENSIONS (mm)	162 dia Bell × 242 L
WEIGHT (gr)	1300
