

AMISDI1

Passive Direct Injection Box

Introduction

The Australian Monitor Installation Series DI1 is a passive direct injection box that features a balanced XLR output, a 6.35 mm TRS through output, 3 stage pad offering up to 40dB of attenuation & a ground lift switch for hum elimination. As part of the AMIS Contractor Tools range, the AMIS DI1 is an inexpensive passive DI that is integral to a wide variety of installations.

Description

- **6.35mm TRS Jack Input:** This will accept balanced or unbalanced signals from a program source or instrument.
- **6.35mm TRS Jack Thru Output:** This balanced output allows for a direct output link to an instrument amplifier.
- **3 Stage input Pad:** This 3 stage switch allows 0dB, 20dB or 40dB of input attenuation so differing sources can be accommodated.
- **GND Lift Switch:** When this switch is in "ground" position pin1 of both the input & the output are connected. When this switch is in "lift" position these grounds are separated. This switch is used to eliminate hum that may be present.
- **Balanced XLR Output:** This balanced XLR output is for connection to a mixing console, signal processor etc.

Specifications

Attenuation Switch:	0dB, 20dB or 40dB selectable
Frequency Response:	15Hz-30kHz
Dimensions:	74mm x 45mm x 130mm
Weight:	650g
