

Australian Monitor Speaker Systems

B-Series Speakers

Affordable full range loudspeaker systems for music reproduction at high levels.

The B-Series is a completely new range of cost effective loudspeakers for the professional user. They use only the highest quality components in our own computer designed enclosures to ensure maximum performance per dollar.

Each loudspeaker system uses high efficiency edge-wound voice coil bass drivers and aluminium diaphragmed compression drivers on constant coverage horns. The cabinets feature heavy duty steel handles, steel grilles and corners. The boxes are manufactured from light weight, reinforced ply with high grade black carpet covering.

Our custom designed divider networks ensure optimum performance under all conditions. The first models available include the BW250- a low profile monitor wedge, the B250- a compact full range cabinet and the B400CD- an extended range speaker system which can outperform cabinets that are twice its size and price.

SPECIFICATIONS

	B250	BW250	B400CD
Continuous power, unclipped:	250 Watt	250 Watt	400 Watt
Short term power, unclipped:	400 Watt	400 Watt	800 Watt
Usable frequency response:	50Hz-17KHz	70Hz-17KHz	45Hz-18KHz
Sensitivity:	101dB @ 1W/1M	101dB @ 1W/1M	105dB @ 1W/1M
Max short term SPL:	124dB	124dB	130dB
Nominal Impedance:	8 Ohms	8 Ohms	4 Ohms
Weight:	30Kgs	30Kgs	56Kgs
Dimensions Height:	680mm	470mm	1200mm
Width:	490mm	490mm	480mm
Depth:	420mm	635mm	500mm
