

# MH30

## Music Horn

### Description

The Australian Monitor Installation Series (AMIS) MH30 Music Horn combines the 'sound' benefits of a cone speaker with the 'throw' benefits of a horn. Additionally, the AMIS MH30 is IP46 rated and is therefore suitable for outdoor use.

With a flexible 'U' bracket, a compact size (283mm x 234mm x 256mm) IP46 rating and 100V line tapplings of 30, 15 and 7.5 watts, the MH30 Music Horn offers contractors everything they need for a successful installation. Most common applications include school playgrounds, sporting fields, shopping centre car parks and anywhere that needs the long throw and durability of a horn speaker but with a smoother, more music friendly sound.

### Specifications

<b>Components</b>	5" horn loaded cone driver
<b>Power Rating</b>	30 Watts
<b>Selectable Power Tappings</b>	30 Watts, 15 Watts, 7.5 Watts
<b>Frequency Response</b>	125Hz - 15kHz
