

VC-LIN-EU WALL PANEL

VC-LIN-EU-W

The Australian Monitor VC-LIN-EU is a wall panel for remote volume control designed in a European/UK standard form factor.

A large rotary control with numbered positions (OFF, 1-10) provides intuitive, clearly referenced volume adjustment. The linear sweep potentiometer delivers smooth, consistent attenuation across the full travel of the control.

Connect the VC-LIN-EU to any compatible product with a Volume Controlled Attenuation (VCA) input.

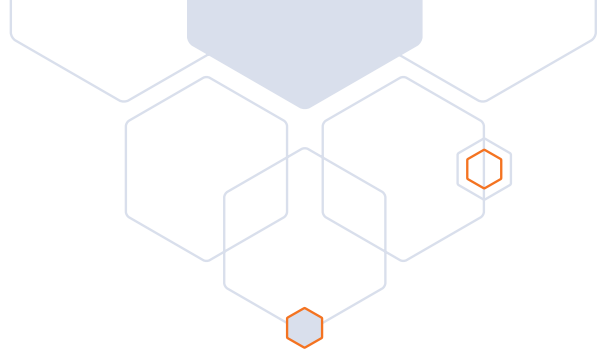

FEATURES

- Rotary volume control
- 500kΩ linear sweep potentiometer
- Remote VCA level control
- Compatible with Australian Monitor IS series power amplifiers
- European/UK standard form factor
