

EU/UK VC SERIES

VC10-EU-W • VC25-EU-W • VC50-EU-W • VC100-EU-W

The Australian Monitor EU/UK VC Series is a range of transformer volume controls for 70/100V line speaker systems, designed in a European / UK standard form factor.

Each unit provides ten stepped level settings plus an off position, set by a front panel rotary control. Four power ratings are available: VC10-EU-W (10W), VC25-EU-W (25W), VC50-EU-W (50W) and VC100-EU-W (100W).

An integrated bypass relay allows the volume control to be overridden, typically for evacuation purposes. Applying +/- 24VDC energises the relay and passes the connected speakers at full output level.

FEATURES

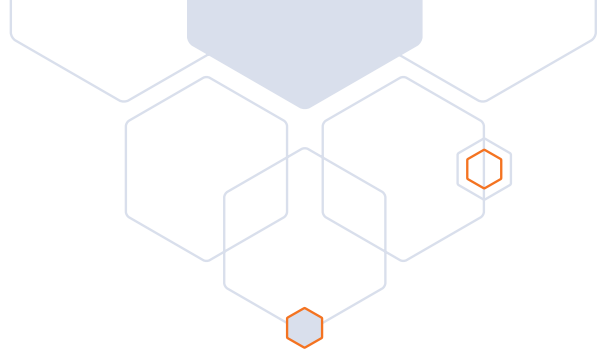

- 70/100V line transformer volume control
- Ten stepped level settings plus off position
- Available in four power ratings:
 - VC10-EU-W — 10W
 - VC25-EU-W — 25W
 - VC50-EU-W — 50W
 - VC100-EU-W — 100W
- Integrated 24V DC evacuation bypass relay

VCXX-EU-W

WPBACKBOX-EU-W (optional)

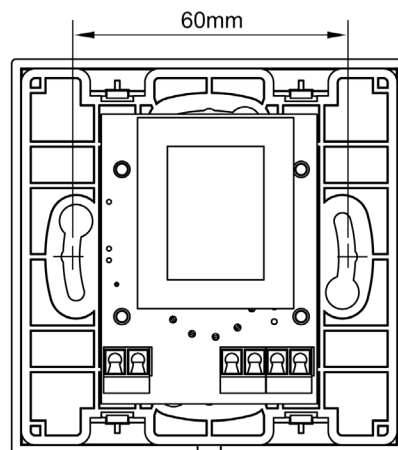

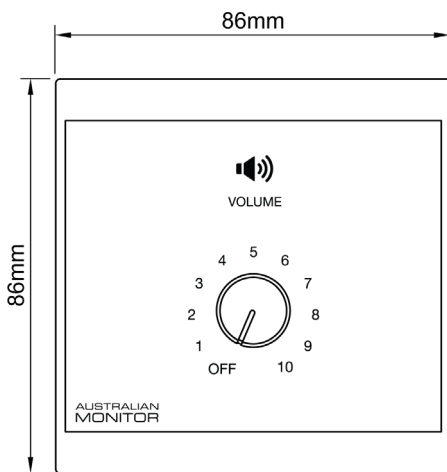

MODEL	VC10-EU-W	VC25-EU-W	VC50-EU-W	VC100-EU-W	COMMENTS
GENERAL					
CONNECTORS	5mm, 2way screw terminal, 12-22AWG
